A Terrible Case of Scrofula Cured by

Hood's Sarsaparilla

"In the winter of 1879 I was attacked with Scrofula in one of the most aggravating forms. At one time I had no less than thirteen large abscesses over and around my neck and throat, continually exuding an offensive mass of bloody matter disgusting to behold, and almost infolerable to endure. It is impossible to fully describe my sufferings, as the case was complicated with Chronic Catarrh. After three years of misery, having been treated by three physicians, I was worse than ever Finally, on the recommendation of W. J. Huntley, druggist, of Lockport, I was induced to try Hood's Sarsaparilla. And now, after having taken twelve bottles, within the last having taken twelve bottles, walnu the last twelve months, the scrotulous cruptions have entirely ecased, and the abscesses have all disappeared, except the unsightly scars, which are daily becoming 'smaller by degrees, and beautifully less.' I do not know what it may have done for eithers, but I do know that in my case, Hood's Sarsararilla has proved an effective specific indeed. As an evidence of my gratitude I send these facts unsaficited, and I am ready to vorify the authenticity of this cure, by personal correspondence with any one who doublist.' CHARLES A. Rob-letts, East Wilson, N. Y.

This statement is confirmed by W. J. Huntley, druggist, of Lockport, N.Y., who calls the nure a great victory for Hood's Sarsaparilla. Send for book giving statements of many cures.

SENSATIONAL STORY SENT ABROAD BY A ST. PAUL PAPER.

ST. FAUL, Minn., Oct. 4.—The Globe publishes a story showing that Emery A. Storrs was deliberately assusainated while at Ottswa, Ills., presenting the case of Joseph C. Mackin to the supreme court. Mackin had, it is stated, gave away completely the secret of the election frauds to Storrs, and the fear of following the little bees to Joher was what of following the little boss to Johet was what prompted the attempt to get Storrs out of the way. It is asserted that the digitalis was put in Stores' liquer, of which he used to stimulate him, and that one of the assessme-has made a partial confession, and is being shadowed by defectives.

W. F. Elhott, for seven years the partner of Mr. Storrs, says be does not believe the was story, to two reasons: First, that his life too valuable to Mackin at the time for any of to variantle to Mackin at the time for any of the latter's friends to have desired his re-moval, and, in the second, that any series that Storrs was possed of Mackin must have known, and would have been more hable to tell if left without the protection of his cham-pion to court. Mr. Elliott saw Mr. Storrs in his ceffin, and there was no frace of oun; intion, or the effects of sickness. In the man any indications of organic disease.
